Numerical study of the Selective Laser Melting process

Post-Master (MS) student : Charlotte Metton (2015–2016/09/15)

Supervisors: M. Mazière, D. Missoum-Benziane; G. Marion, B. Macquaire (Safran Tech)

Industrial partner: Safran Tech

- Layer-by-layer thermomechanical simulation of the powder deposition (FE code Zebulon/Z-Set)
- Validation on previously tested TA6V specimens
- Estimation of the residual stress field in several specimen shapes
- Process optimization
